GLOBAL SERVICE & ENGINEERING

Service Never Sleeps

# THE UNIQUE INTERNATIONAL SERVICES EXPERIENCE

IS International Services, LLC (IS) is a global service and engineering company with national and international reach to high quality talent to support our projects and our partners requirements.

IS provides our customers with fast quality service with the goal and commitment that "Service Never Sleeps". We work harder, listen better and respond quicker. We take real pride in customer satisfaction. This is one of the reasons many of our clients maintain partnership with us for years and always turn to us for project and staffing needs.

Our unique recruiting model and service approach is vouched by our customers, many of which are Fortune 500 companies, to be one of the best in the industry. Our large technical recruiting team has the capability to quickly understand your business needs and customize solutions with speed and quality. We offer a range of staffing solutions to our client partners, including contract, contract to hire, and direct placement. For executive and strategic level staffing needs, we have a dedicated retained search division.

**Let us prove to you that we will work to your satisfaction.**

Our talent identification process begins with understanding the customer's requirements, fine-tuning our profiles and using our industry experienced TAS Team to find, recruit and select the right candidate.

## STAFFING SERVICES

### Client-Focused Talent Acquisition Solutions (TAS)

All of our recruiting managers have either an Engineering or IT background. This is a huge advantage and differentiator when it comes to finding the "just right" candidates. We understand what the software development life cycle entails and what is required to complete a project on time within budget. We identify the best candidate to fit your specific requirements and your organizational culture in IT, Engineering, Quality Assurance, Telecom, Human Resources, and other skilled disciplinary areas.

Our TAS process challenges the norm. Our TAS Team goes beyond just searching for mediocre candidates. Our deep relationships and industry experience set us apart from any other recruiting firms in the process of identifying, acquiring and retaining highly-competent, talented and experienced candidates. We also offer strategic staffing partnership opportunities to assist and support our clients' implementation needs.

IS International Services thoroughly qualifies each candidate to ensure he/she meets the high standards before referring to our clients for next step interviewing and screening:

- Skills Assessment
- Personal Interviews
- Reference Check
- Background Check
- Drug Screening
- Certifications/Licenses (for all positions applicable)

### Information Technology (IT) Recruiting

IS offers a variety of IT staffing and solution options. Primary skill sets covered include:

- WebSphere/Middleware (Development and Engineering)
- .Net including Sharepoint and Silverlight
- Java (Front-End and Server-Side)
- Virtualization
- Unix and Windows Administration
- Remote Support
- Web Development (Flex, Flash, .Net, Java)
- Agile Development
- Medical Technology Staffing
- UX/UI/IA Developers and Architects
- IT Infrastructure
- Network Engineers
- Network Administrators
- Mobile Application Development
- Data Center
- Security
- Mainframe
